VeeTrax

Every vehicle.
One screen.

Live GPS tracking, instant alerts and clear reports for cars, bikes, trucks, buses and people, on the web and on your Android phone.

What you get

Live map
Every vehicle with speed, ignition and address. People shown walking or running. Names and plates on the map in one tap.

Instant alerts
Overspeed, ignition, geofence, power cut, tamper, offline and more.

Loud SOS alarm
SOS, crash or power cut rings a loud alarm, even with the app closed.

Voice alerts
The app reads each alert aloud, with an on/off switch.

Smart geofences
Search an address, draw a zone, and know who enters or leaves.

Parking alarm
A loud alarm on your phone if a parked vehicle moves.

Share live location
A simple link, no app needed, with a live arrival time.

Trip replay
Total km, stops, idle time and speed. Play every trip back on the map.

Dashboard and reports
Download the dashboard or a map picture with your company name. Reports e-mailed on a schedule.

Ask VeeTrax
Ask in English, Hindi or Tamil. Every answer opens the right page.

Drivers, fuel and expenses
Driver scores, fuel logs and bill photos, with cost per km.

Phone as a tracker
The VeeTrax Tracker app turns an Android phone into a GPS tracker, with SOS.

1. Fit a GPS device in your vehicle, or install the Tracker app on a phone.
2. Sign in on the web or the VeeTrax app.
3. Watch live, set your alerts and read your reports.

Also included

- Share a vehicle with another company
- Dashcam live video
- English, Hindi and Tamil
- Works with most GPS devices: GT06, Teltonika, JT808, AIS-140

VeeTrax Staff Attendance

Attendance that marks itself.

Staff carry the VeeTrax Tracker app or an ID card. Reaching the work site checks them in, leaving checks them out, and the whole day is worked out for you.

How it helps you

Automatic check-in
Geofences around your branches and work sites. No punching, no registers.

Shifts and grace time
Present, late, half day or absent, marked every day on its own.

Real working hours
Time inside the site plus official duty. Fair overtime only after the shift.

Stepped out? You know.
Staff say official or personal in the app; you have the final word.

Selfie or video proof
Optional, stamped with name, time, address and location.

Your rules
Other branches, travel, break allowance and overtime, each with a switch.

Right now
Who is inside, out or without signal, with first-in and last-out addresses.

Ask VeeTrax
Type "attendance" for the whole day, in English, Hindi or Tamil.

Payroll ready
Payable and loss-of-pay days in Excel, PDF or CSV, or via the API.

Corrections and alerts
Fix a day with a reason. Alerts for late, absent or away too long.

New: Employee insights
One person, any period: the pattern, not just the day.

Attendance	Usual check-in	Average a day	Overtime
92%	9:08 am	8 h 40 m	6 h 30 m

Late most often on Monday · 45 min away not explained · calendar of every day

Sample figures for illustration.

1. Mark your work sites on the map and set your shift hours.
2. Staff activate the Tracker app on their Android phone.
3. Attendance fills in by itself. You review and correct.

Ask for a demo for your team.
